

## **OHCAccess Bulletin – 2/19/2016**

### **For Distribution to All TSA Employees**

#### **Employee Personal Page (EPP) Security Improvements**

Beginning with Pay Period (PP) 06, the Employee Personal Page (EPP) security functionality will be updated to strengthen password security, add security questions, and generate email notifications when changes are made by the user.

Current EPP users whose passwords do not meet the new criteria will be required to change their passwords upon accessing their EPP accounts. Additionally, if users fail to answer their security questions correctly, make changes to their email addresses, or change any of their preferences in EPP, an email notification will be issued to their email address on file.

For additional information, see the National Finance Center (NFC) [announcement](#) from February 18, 2016.
